Web Technologies : MongoDB, Express.js, React.js, Node.js

Backend Skills: RESTful API Development, JWT Authentication

Development Tools : Git, GitHub, Vercel, Render, Postman

Soft Skills : Positive Thinker, Team Player, Fast Learner, Bug Solver

AI-Driven Efficiency : Proficient in prompt engineering for rapid growth

OBJECTIVE

A passionate and dedicated MERN Stack Developer with a solid programming background and a modern approach to problem-solving through AI-assisted development. I bring resilience, a growth mindset, and a strong work ethic - committed to turning ideas into reality and driving team success.

PROJECTS

Mental Wellness Tracker Web App
React, Node.js, Express, MongoDB | Tailwind CSS | Deployed on Vercel (Frontend) & Render (Backend)
A fully responsive and animated wellness platform with journaling, mood tracking, JWT auth, and sentiment analysis. Features include real-time mood charts, user authentication, and data analytics dashboards.
Live on : https://mental-wellness-tracker-app.vercel.app

Alumni Association Web App
React, Node.js, Express, MongoDB | Tailwind CSS
A full-stack platform for alumni and students to connect
Built user registration, profile management, event creation, and admin functionalities to manage alumni databases and interactions.

Men's Ethnic Wear E-Commerce Website
HTML | CSS | PHP
A fashion-forward, responsive website with modern UI/UX
Features include product categories, cart system, wishlist, and dropdown-based navigation.

LANGUAGES KNOWN

1. Gujarati (Native)
2. Hindi (Fluent)
3. English (Professional Proficiency)

PERSONAL TRAITS

1. A resilient problem-solver who turns challenges into opportunities.
2. Believe in the power of AI-assisted coding to work smarter and faster.
3. Once committed, I give my 100% - delivering on my word is my signature.
4. Not perfect, but passionately driven to be a valuable, growth-oriented asset to any team or organization.
